

MoreBeer! Pro

With the largest selection of brewing equipment & supplies globally, we strive to be the best one-order solution for small to medium-size breweries. A division of MoreFlavor Inc., started in 1995 by the same owners who continue on today, MoreBeer! Pro is our professional brewery division selling only to licensed breweries. MB is our line of professional brewing equipment designed in-house by our team of designers. MB equipment is that perfect mix of innovative design, quality, and value.

Why Shop With Us?

- The largest selection of brewing supplies in the world with over 9,000 products in stock
- Competitive flat pallet rates and ground rates
- Volume Price Breaks
- Warehouses operate 7 days a week
- Industry-leading customer service
- More than 1 out of 3 breweries already buy from MoreBeer! Pro
- Family owned and operated since 1995

Thank you for picking up our brochure, a curated list of our top products and brands. Our complete selection of products is available online at MoreBeerPro.com. For access to wholesale pricing and to place orders, new customers can fill out the online account form. It takes just a few minutes to sign up! There are no contracts, no order minimums, and no obligations. If you have any questions, need advice, or want help with a quote, feel free to contact our customer service center at 1-888-880-8178.

MB Pro Brewing Systems

Our Complete Electric Brewhouses Offer Excellent Quality And Value!

- 3.5 to 7bbl systems available.
- Made at a family-owned manufacturer in the Ningbo region of China, known for making premium brewing equipment.
- Designed by our in-house R&D expert and brewmaster, Colin Kaminski.
- Cleanability, ease of use, and durability are our primary design criteria.
- Vessels are also sold separately.

A | MASH TUN (PBE20035B-MB & PBE2007B-MB)

- Insulated for low heat loss
- Slotted 3 pieces false bottom
- Large side grain out door
- Removable grain out chute
- 4" TC grain inlet port for optional grist hydrator Adjustable Height sparge arm for better HSA performance
- Sparge arm has two inlets, HLT and Recirculation.
- Large top lid for easy stirring
- 450+ lbs Grain Capacity
- Internal LED Light
- Rake & Plow System also available (PBE2007RPB-MB)

B | BOIL KETTLE (PBE30035-MB & PBE3007-MB)

- Powered by (3) 15,000-watt 3-phase 208V elements
- Total Amperage Draw: 125 amps at 3ph 208V
- Tangential port for whirlpool
- Side drain with hop dam for easy whirlpooling and good trub separation
- Dished bottom with 2" center drain for easy trub clean up
- CIP Ball, glass manway door, internal LED light, and more!

C | HOT LIQUOR TANK (PBE10035-MB & PBE1007-MB)

- Oversized for mashing and sparging without having to top off
- Insulated walls for safety and energy efficiency
- Condensation trap so no flue is used
- Sight gauge to check volume
- Fill Port
- Tapered bottom w/ center drain
- Float switch to protect the electric elements from running dry (wiring required)
- Powered by (3) 15,000-watt 3-phase 208v elements
- Total Amperage Draw: 125 amps at 3ph 208v

A

B

C

D | CONTROL PANELS

- Available in 3.5 & 7 bbl and 7 bbl with rake
- Individual element control
- Easy expansion/growth to VFDs for the pumps
- Web access to manage from phone/tablet/desk
- 7" touch screen
- Three temperature probes and cable
- UL listed

D

E | WORT GRANT

- Three 1.5" TC ports • 40L / 10.5 gal
- Silicone tube sight glass
- Made from 304 stainless steel

E

F

F | TWO STAGE HEAT EXCHANGER

- WC7035-MB for 3.5 to 15 bbl. Provides 3 m² or 32.2 ft² of cooling area.
- WC7150-MB for 15 to 30 bbl. Provides 6 m² or 64.5 ft² of cooling area.

G | COMMERCIAL MILL

- Processing Speed: 1,700–2,200 lbs/hr
- Hopper Capacity: 45 lbs
- Voltage: 220V 3-phase motor
- Power: 4 HP • Amperage: 13.6 amps

G

H

H | SMALL COMMERCIAL MILL

- Processing Speed: 330–660 lbs/hr
- Hopper Capacity: 22.5 lbs
- Voltage: 220V 3-phase motor
- Power: 1.4 HP • Amperage: 5 amps

I | VARIABLE SPEED PUMPS

- Variable frequency drive
- Built-in potentiometer speed control
- 1.5" TC connections
- On/Off switch • Emergency Shut Off Button
- Stainless Cart, Motor Guard and Control Panel
- Temperature Rating: 212°F

PMP650 | 1 HP | 110V

- GPM: 13.2
- Max Head: 54'
- Input Power Required: 110–120V, 1ph, 60hz
- Amperage Draw: 8 amps

PMP655 | 2 HP | 220V

- GPM: 22
- Max Head: 78'
- Input Power Required: 208–240V, 1ph, 60hz
- Amperage Draw: 16 amps

K | HOP BACK TANK

- Side outlet port above bottom dump for sediment separation
- Basket is made from a perforated plate with a fine mesh screen
- 26.4 gal (100L)
- 304 stainless steel
- 1.5" tri-clamp ports

I

K

1 BBL to 120 BBL

Why Our Tanks?

MB Tank geometry and feature sets were created by our lead pro-equipment designer and former brewmaster, Colin Kaminski. MB tanks are the perfect mix of innovative design, quality, and value.

MB Tanks Feature:

- 304 stainless steel construction
- External Shell: 2 mm thick with brushed finish
- Internal Tank: 3 mm thick with smooth ground welds, 2B finish, and passivated
- Includes dimple welded glycol jacket(s) 1.5 mm thick
- 3" of internal PU insulation between tank and outer jacket
- Separate cone and tank cooling jackets
- ¾" FNPT glycol inlet/outlet ports
- Horizontal racking arm and carbonation stone
- DIN rotating racking arm for safety and ease of use
- 2" bottom valve for easier trub removal (3.5 bbl and up)
- CIP spinning spray ball and piping built-in (3.5 bbl and up)
- 4" T.C. top hop port with handle
- Carbonation Stone included with all tanks
- Pressure Relief/Vacuum Breaker valve rated at 1 Bar / 15 PSI
- Pt100 Thermocouple for high accuracy
- Analog temperature gauge
- Sealed Pressure Gauge
- Ladder rack (7 bbl and up)
- Shadowless Manway
- Perlick style 1.5" T.C. sample valve
- Adjustable feet with mounting holes
- Includes all valves, clamps & gaskets

Unitank/Conical Fermenters

- Oversized for 25% average headspace
- Unitanks between 3.5 bbl and 20 bbl have two cooling zones, 30 bbl has 3 cooling zones.
- Separate blow-off pipe
- Front side manway

Brite Tanks

- Brites are oversized for 15% average headspace
- Brites between 3.5 bbl and 20 bbl have two cooling zones, 30 bbl has 3 cooling zones
- Sight-glass for reading volume
- Front side manway

ABOUT MB TANKS

Stackable Lager Tanks

- Set of 2 jacketed brite tanks
- Side manway door for cleaning

Quality Malts

Viking, *Briess*, and *Great Western* are our house malts that we distribute at competitive pricing and stock in both East and West Coast warehouses.

Additionally, we also offer 150+ malts for your convenience.

Additional Malt Brands:

- Canada Malting
- Crisp Malting
- Bairds Malt
- BestMalz
- Dingemans Malting
- Fawcett Malting
- Gambrinus Malting
- Rahr Malting Co.
- Simpsons Malt
- Weyermann

Viking Malts

GABF AWARD WINNING BASE MALTS: As opposed to a “one base malt fits all”, Viking offers four base malts.

- **VIKING PILSNER** – A true European Pilsner malt. Brewers love it because the flavor is midway between light and heavy. Direct imported by us... the best value available.
- **VIKING PALE ALE** – Classic Pale Ale malt with lots of flavor.
- **VIKING XTRA PALE** – A truly unique malt: modified like a Pale Ale malt, kilned like a lager malt.
- **VIKING PILSNER ZERO** – Unique! Crafted from null-lox barley types to keep lagers fresh and help eliminate lipoxygenase staling.

SPECIALTY MALTS: Viking has an entire malt house, and ten roasters, dedicated to making specialty malts. They produce more roasted specialty malts like Caramel, Chocolate, Roasted Barley, etc. than any malt producer in the world.

Briess Malts

- 2-Row Malt
- Pale Ale
- Pilsen
- American Honey
- Carapils
- Goldpils® Vienna
- Bonlander Munich
- Victory
- Aromatic
- Malted Rye
- Red Wheat
- Raw White Wheat
- Torrified Wheat
- Cherrywood Smoked
- Ashburne® Mild
- Distillers
- MaltGems™
- Caramel 10°L
- Caramel 20°L
- Caramel Vienne 20°L
- American Caramel 40°L
- Caramel 60°L
- Caramel Munich 60°L
- Caramel 80°L
- Caramel 90°L
- Caramel 120°L
- Special Roasted
- Chocolate
- Roasted Barley
- Black Roasted Barley
- Black (Patent)
- Blackprinz
- Midnight Wheat

Great Western Malts

- Premium 2-Row
- American Pale
- California Select
- Superior Pilsen
- Munich
- White Wheat
- Crystal 15°L
- Crystal 40°L
- Crystal 60°L
- Crystal 75°L

Artisan™ Hops

Hops sourced from hop growers and brokers around the world! Nitrogen flushed and vacuum sealed in oxygen barrier bags for freshness. 11 lb, 5lb and 1 lb sizes in stock. Smaller sizes available for pilot batches.

Yakima Chief® CryoHops®

CryoHops® are an innovative hop product that is made by separating the lupulin from the hop flower using cryogenic processing. The result is a product with twice the potency of T90 pellets, with reduced astringency and vegetative material. Visit our website for our full line of CryoHops®.

AVAILABLE IN
12G & 500G

CellarScience™ Dry Yeast

CellarScience™ offers GABF winning yeast strains for direct pitch into your wort. With high sterol and nutrient reserves, they do not require oxygenation in the first generation. Every batch is PCR tested to ensure consistent quality. Learn what several hundred breweries already know... this yeast saves time, saves money, and produces award-winning beers.

Available Strains :

- ACID
- CALI
- BAJA
- BERLIN
- ENGLISH
- GERMAN
- HAZY
- HORNINDAL KVEIK
- KÖLSCH
- MONK
- NECTAR
- SAISON
- VOSS KVEIK
- PRIME

NEW STRAINS

- Philly Sour
- Sour Pitch
- Helveticus Pitch

LALLEMAND BREWING

Temperature & Humidity Control

Kreyer Glycol Chillers

A | CHILLY MAX 90 PORTABLE CHILLER/HEATER

- Built, Tested, and Engineered in Germany
- Single and 3 phase units available
- 3 Tons (36,000btu) of cooling power
- .85 Tons of heating power
- Can cool glycol/water down to -10°C/14°F
- Can heat glycol/water up to 42°C/107°F

A

B

Kreyer Humidifier

B | CENTRIFUGAL HUMIDIFIER (HUM600)

- Stand-alone unit is easy to install
- Compact construction
- Wall or suspended mounting
- Water Output: 6.5 L/h (1.69 Gal/h)
- Air Flow: 280 m³/h • Power: 230 watts • Power: 110V/1Ph/60Hz

C

Kreyer Fan Units

Kreyer Fan Unit for Rooms Up To 85,000 cu.ft. Cool your cellar using your existing glycol system!

C | SDS MODELS

- Four models, with capacities from approx. 4.5 and 18.8 kW by human-comfort temperatures
- Aesthetic design • Very low noise
- Robust construction: high resistance to thermal shock
- Rounded angles improve hygiene so bacteria can't settle in corners.

Cold Shot Chillers

D | 5, 10, 12.5 & 15 TON 3 PHASE GLYCOL CHILLERS

- Low Temp leaving fluid temperature range of 20–70°F.
- Rated to 0°F ambient temperature
- Digital temperature controller with self-diagnostic control system
- Made in the USA by Cold Shot chillers
- Supported 24/7 by a network of techs in the US
